

Manufacturer & Exporter of
Quality Brass Components

INDIA  ENTERPRISE

ABOUT US

Contact us today for more information on our products. We assure you of best quality, timely supply & capacity to mass production. We are always here to hear you.

India Enterprise is mainly engaged in manufacturing any kind of brass turning parts like electrical / electronic parts, brass auto parts, brass connectors, fuse parts, neutral links, brass anchors (fastener items), brass forging parts, nuts & bolts, sanitary parts, brass hose nipples, moulding inserts, etc. For us, customer's satisfaction is at the top priority.

We at India Enterprise, are committed to quality maintenance, timely delivery and adhering to buyers specifications. Apart from our huge production capacity, we also have associates to cope with any level of mass productions.

India Enterprise, a leading name for brass parts, is situated in Jamnagar, in the western part of India. The company is just 5 Km. away from City Airport. Run by Mr. Satish Nanda, the company believes in Quality and Timely Delivery.

OUR MISSION

Striving to be a leader in our field by making innovative products with superior quality, collaborating with customers to reduce costs and build basis for mutual collaboration, and intensifying our efforts towards ongoing financial stability and profitability

In pursuance of our strategy our main vision is to meet the customer needs and fulfill their expectation, and provide them with high quality of services at the least cost.

OUR VISION

We are constantly striving to achieve excellence in our services. We at India Enterprise maintain high ethical and professional standards to stay on top in changing business environment.

QUALITY

Our commitment to quality is evident from the facts that we manufacture products in accordance with the relevant International Standards and have the necessary product approvals.

India Enterprise insists upon unmatched quality and excellent customer services at most competitive prices. As our Plant has been installed with latest and ultra modern automatic equipments, we are able to provide all our products as per International Standards.

Our Quality Control Team continuously monitors the products and users requirements right from the production stage up to final dispatch.

Our extensive experience allows us to offer technical support services, from design advice through to testing and commissioning of the products. Due to strict quality control procedures our customers are ensured that their requirements are met accurately and consistently.

INFRASTRUCTURE

With the help of automatic and semi-automatic manufacturing machines the production activity becomes quite comfortable. India Enterprise has decorated its infrastructure with the latest technology machinery and tools. Also, its workforce is quite competent and energetic as well. We have set up a huge R&D center from where constant flow of new and innovative techniques is a regular affair. A modern and capacious warehouse acts as boon for us, as it helps store the bulk in the safest manner.
